Senior Software Engineer with experience in Java Spring Boot, PostgreSQL, Kafka, and Redis, particularly in banking and enterprise systems. Focused on building scalable, maintainable, and high-performance backend services that reliably meet business and user needs.

SKILLS

- Programming: Java, C++, JavaScript (NestJS).
- Frameworks & Tools: Spring Boot 3, Kafka, Git, Docker, Agile/Scrum.
- Databases: PostgreSQL, SQL Server, Redis.
- Cloud & DevOps: Basic knowledge of EC2, S3, CI/CD, Linux, Nginx.
- Soft Skills: Problem-Solving, Teamwork, Communication, AI-DLC.

WORK EXPERIENCE

KIENLONGBANK

8/2024 - Present

SOFTWARE ENGINEER

- Contributed to the HRM project under Agile methodology, developing modules for employee records, organizational structure, job positions, attendance, leave management, and employment contracts. Successfully piloted and delivered the employee records and organizational structure modules to organization-wide go-live within 2 months, supporting 15,000+ employees across 700+ organizational units and regions.
- Built an approval processing system using Kafka, CDC (Debezium), and Notification Service, leveraging Change Data Capture to capture and propagate data changes in real time, automate approval workflows and email notifications, and reduce manual processing by 80%.
- Developed a core banking simulation system covering payments, savings, and credit accounts using Java Spring Boot 3, PostgreSQL, Kafka, and Redis, achieving a 90% score in the training project evaluation.
- Supported task planning and coordination for a 5-member development team, including workload allocation, progress tracking, issue resolution, and technical support to team members when needed.

IVS JOINT STOCK COMPANY

10/2023 - 06/2024

JAVA DEVELOPER

- Converted legacy RPG code to Java EE, migrating 100+ programs with ~99% accuracy, improving maintainability and reducing technical debt.
- Maintained code quality through SVN version control and JUnit testing, detecting bugs 20% earlier and ensuring consistent, reliable delivery across 5+ project releases.

EDUCATION

VIETNAM NATIONAL UNIVERSITY HO CHI MINH CITY

7/2021 - Present

HO CHI MINH CITY UNIVERSITY OF TECHNOLOGY (VNU - HCMUT)

COMPUTER SCIENCE

- Relevant Coursework: Object-Oriented Programming, Data structure, Web Programming
